La lista de publicaciones importadas directamente desde Scopus aparecen de forma inmediata en el registro de ORCID. Por defecto se incluyen configuradas como privadas, para hacerlas visibles hay que marcarlas como públicas.

Para actualizar las publicaciones hay que importar cada nuevo trabajo indexado en Scopus.

Una vez vinculados ambos sistemas el identificador ORCID aparece incluido en el perfil de Scopus, al igual que el Author ID de Scopus se integra en el registro de ORCID.

En Scopus se muestra la opción para añadir publicaciones a ORCID desde el **perfil del autor**. Se selecciona **Add to ORCID**.

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on a certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than 1 entry for the same author.
