

**CALL REQUIREMENTS**

Call Title: Mediated biphasic battery

Contact person: Edgar Ventosa

Department: Chemistry

Category:  Researcher

Others

Workday:  Full time

Part time

Aim: Continuous revision of the state of art, design, conducting and analysis of electrochemical experiments related to electrochemical flow systems as well as numerical simulations, dissemination of results through participation in international conferences and publications in leading journals, and intellectual property protection of the work performed

Requirements of the candidate: 1) PhD Degree in Chemistry or similar, 2) Fundamental knowledge in electrochemistry, 3) Knowledge in numerical simulation, 4) demonstrable expericne in batteries, 5) Excellent track-record in terms of publications

Duration:

Gross monthly remuneration: 2275 Euros

Application submission deadline: June 20, 2023

Documents to be provided: Passport, PhD Degree Certificate (or provisional certificate of PhD degree), Curriculum Vitae.
