

CALL REQUIREMENTS

Call Title: Electrochemical Processes and Energy Storage Contact person: Edgar Ventosa

Department: Chemistry

Category: Researcher

Others

Workday: Full time

Part time

Aim:

- Continuous revision of the state of the art, design, execution and analysis of electrochemical experiments related to the development of a new battery concept, supervision of students, dissemination of results through participation in international conferences and publications in leading journals, and intellectual property protection of the work performed.
- Perform experimental tasks related to the project "Redox flow battery mediated by identical electrolyte."

Requirements of the candidate:

- PhD Degree in Chemistry or similar.

Duration: Until February 28, 2027

Gross monthly remuneration: 3.100,00 Euros

Application submission deadline: May 19, 2026

Documents to be provided:

- Copy of valid National Identity Document (DNI) or equivalent.
- Curriculum Vitae in free format, with express mention of the merits of scientific productivity outlined in the selection criteria.
- Copy of the qualification requested in the call for applications.
- Any other documentation that may prove the criteria required in the call for applications.
