Context & Environment

Medicina is a small municipality in the province of Bologna. The non-profit association **La Strada** has been working for 15 years in Medicina and Castel Guelfo in social work, **especially to help children with social difficulties**. Over the years, the work has expanded, involving young people and adults, especially immigrants. The activities begin each afternoon with specific and personalised support open to boys and girls reported by the school and local social services. **Activities include educational and entertainment** moments with various topics that are developed over the entire year. The association is also helping the learning process of Italian for immigrants who have recently arrived in our country and it started an information point about job search and other bureaucratic issues.

La Strada also carries out a course about intercultural and peace education in collaboration with teachers and local schools. The main topics discussed are: peace education, visits to Fossoli and Monte Sole, immigration and North-South relations in the world, foreign debt, equal and fair trade, Islam and Christianity in history and today. La Strada also organises periodical cineforums to reflect on certain topics (racial hatred, bullying, sexuality, friendship...), artistic workshops, trips, etc.

Local impact: the activities are meant to reduce the risk of social exclusion or disadvantage and achieve the reintegration of this people. For this, La Strada cooperates with local institutions (city council, social services, schools and other organisations).

All together, volunteers will also develop some **common projects**, supported by their mentor, p.e. the video about the project, radio interviews, public language tandems, public events... All volunteers have the responsibility to contribute to the visibility of the project and of the European Solidarity Corps programme.

Free days: during the project, volunteers will have two consecutive free days per week, as well as two additional free days per month. Holidays should be negotiated with the organisation to guarantee its proper functioning.
