EVS
PROJECT

**MUSIC IN
YOU!**

12 MONTHS STARTING
JULY 2017

BROCENI, LATVIA

LITTLE BIT ABOUT THE PROJECT

"Music in you!" is 12 month long European Voluntary Service project coordinated and hosted by Broceni municipality's Youth center "Together". Partners for this project are NGO "Centrul de Voluntariat Cluj-Napoca" from Romania and Youth center from Spain "Ayuntamiento de Avila". In project there are 2 volunteers hosted.

Project aim - Through Non-formal learning activities and day to day learning form an understanding about similarities and differences between European countries involved in project, to encourage youth international cooperation and develop youngsters competences and skills.

To reach the aim of project following tasks were set:

- Receive 2 volunteers from Romania and Spain, to advertise voluntary work and it's values into local community
- Support volunteer's cooperation with youth from Broceni municipality by organizing activities and processes which encourages inter-cultural dialogue.
- Give opportunity for Broceni youth and EVS volunteers to develop their foreign language competences as well as other skills.

AND MORE

This project is implemented at Broceni Youth center "Together", which is daily visited by 25 to 40 kids and youngsters aged from 8 to 25 years. By involving EVS volunteers it is possible to make day to day life for these youngsters more interesting, to encourage them to be more active, develop their skills and to recognize and use opportunities in Latvia, Europe and world.

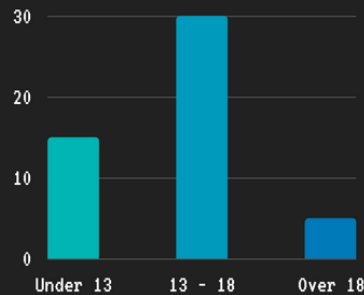

For implementation of project activities volunteers will cooperate with schools, NGO's, Youth centers in Broceni district and Latvia. Project activities (various workshops, cultural nights, events to promote volunteering ect.) will be implemented through the use of Non-formal learning tools and methods. This will encourage inter-cultural communication, a dialogue, a reduction of stereotypes.
