

**CALL REQUIREMENTS**

Call Title: Technician supporting the research Project “Quantum Groups, Poisson-Lie groups, Homogeneous spaces and applications”

Contact person: Angel Ballesteros Castañeda

Department: Physics

Category:  Researcher

Others

Workday:  Full time

Part time

Aim: Computational support for the research activities of the Project, in particular the work will be focused in all the applications of the Project concerning quantum information theory, quantum computation and quantum communications.

Requirements of the candidate: Bachelor Degree in Physics and/or Mathematics.

Duration: 3 months.

Gross monthly remuneration: 1.368 €.

Application submission deadline: March 18, 2022

Documents to be provided: Identity card, Curriculum vitae, academic certificate, justification of merits.
