

CALL REQUIREMENTS

Call Title: : PROCESOS REDOX MEDIADOS PARA BATERIAS DE FLUJO

Contact person: Edgar Ventosa

Department: Chemistry

Category: Researcher

Others

Workday: Full time

Part time

Aim: Continuous revision of the state of art, design, conducting and analysis of electrochemical experiments related to the development of a new battery, dissemination of results through participation in international conferences and publications in leading journals, and intellectual property protection of the work performed

Requirements of the candidate: 1) Master Degree in Chemistry or similar, 2) Good academic record, 3) Fundamental knowledge in organic synthesis, 4) Fundamental knowledge in redox flow batteries, 5) Hands-on experience in redox flow batteries

Duration:

Gross monthly remuneration: 1450 Euros

Application submission deadline: December 7, 2022

Documents to be provided: Master Degree Certificate, Curriculum Vitae.
