

**CALL REQUIREMENTS**

Call Title: Shape-free, easily-recyclable batteries based on gellable injectable electrodes

Contact person: Edgar Ventosa

Department: Chemistry

Category:  Researcher

Others

Workday:  Full time

Part time

Aim: The purpose of this contract is to carry out Spectroelectrochemistry experiments in the laboratory of the instrumental analysis group of the Universidad de Burgos. Candidates will have to be able of analyzing the obtained results. Candidates will need a background in electrochemistry and spectroscopy, with experience in Spectroelectrochemistry being very valuable.

Requirements of the candidate: 1) Master Degree in Chemistry or related topics, 2) Hands-on experience in spectroelectrochemistry, 3), Knowledge of electrochemical fundamentals 4) Communication skills in English.

Duration:

Gross monthly remuneration: 1.436 Euros

Application submission deadline: September 27, 2023

- Copy of valid National ID card or equivalent
- Curriculum Vitae
- Copy of the degree requested in the call for applications.
- Academic certificate of the required degree
- Any other documentation that can accredit the criteria required in the call.
