

**Asercomex Logistics** is a company specialized in supply chain management. The company, with its headquarters in Burgos, began its activity in 1996, so it already has more than 24 years of presence and trajectory in the market of international trade.

As an investor, this company will make all the arrangements for the transport of goods from Asia to Spain. If you need any kind of service related to international trade, Asercomex can help you set up your company in Burgos, and transport the necessary machinery or goods to develop your investments in Spain.

The main services Asercomex offers to foreign companies are:

- ➔ **Customs management**
- ➔ **Advice on foreign trade**
- ➔ **Storage of all kinds of goods** (food, vehicles, components, machinery, etc.)

For exports and imports, it has three different areas that will facilitate the entry of goods from Asia to Spain. In addition, once in Spain, they have the capacity to move the goods you need throughout Europe. So this company from Burgos can be the gateway for your Asian company to enter Spain and the European Community.

3 types of logistics depending on your needs as investor:

	Inland transportation
	Maritime transport
	Air transportation

**If you are thinking of establishing commercial relations with any Spanish or European company, Asercomex can be the key to manage all the necessary customs procedures, carry out the transport of goods, and advise you on entering the European market.**
