OUR MISSION

La Gran Colombia University is a community made up of students, professors, and the administration, whose purposes are the integral and permanent formation of its members, the pursuit of truth through research, innovation, the generation of new knowledge, and the communication of knowledge. According to the criterion of its founder, Julio César García Valencia, it is a Christian, Bolivarian, Hispanic, and Solidary university.

INSTITUTIONAL VALUES

The University La Gran Colombia is guided by several institutional values:

Christian: the university is dedicated to the affirmation of human dignity and the communal search for truth, and its shield bears the words of Christ: "Veritas Liberabit Vos". The Christian orientation is Catholic, without any exclusion whatsoever.

Bolivarian: the institution is faithful to the ideals of the Liberator, contributing to the integration of Hispano-American peoples in general and the Gran Colombia community in particular, with the aim of creating a new civilization.

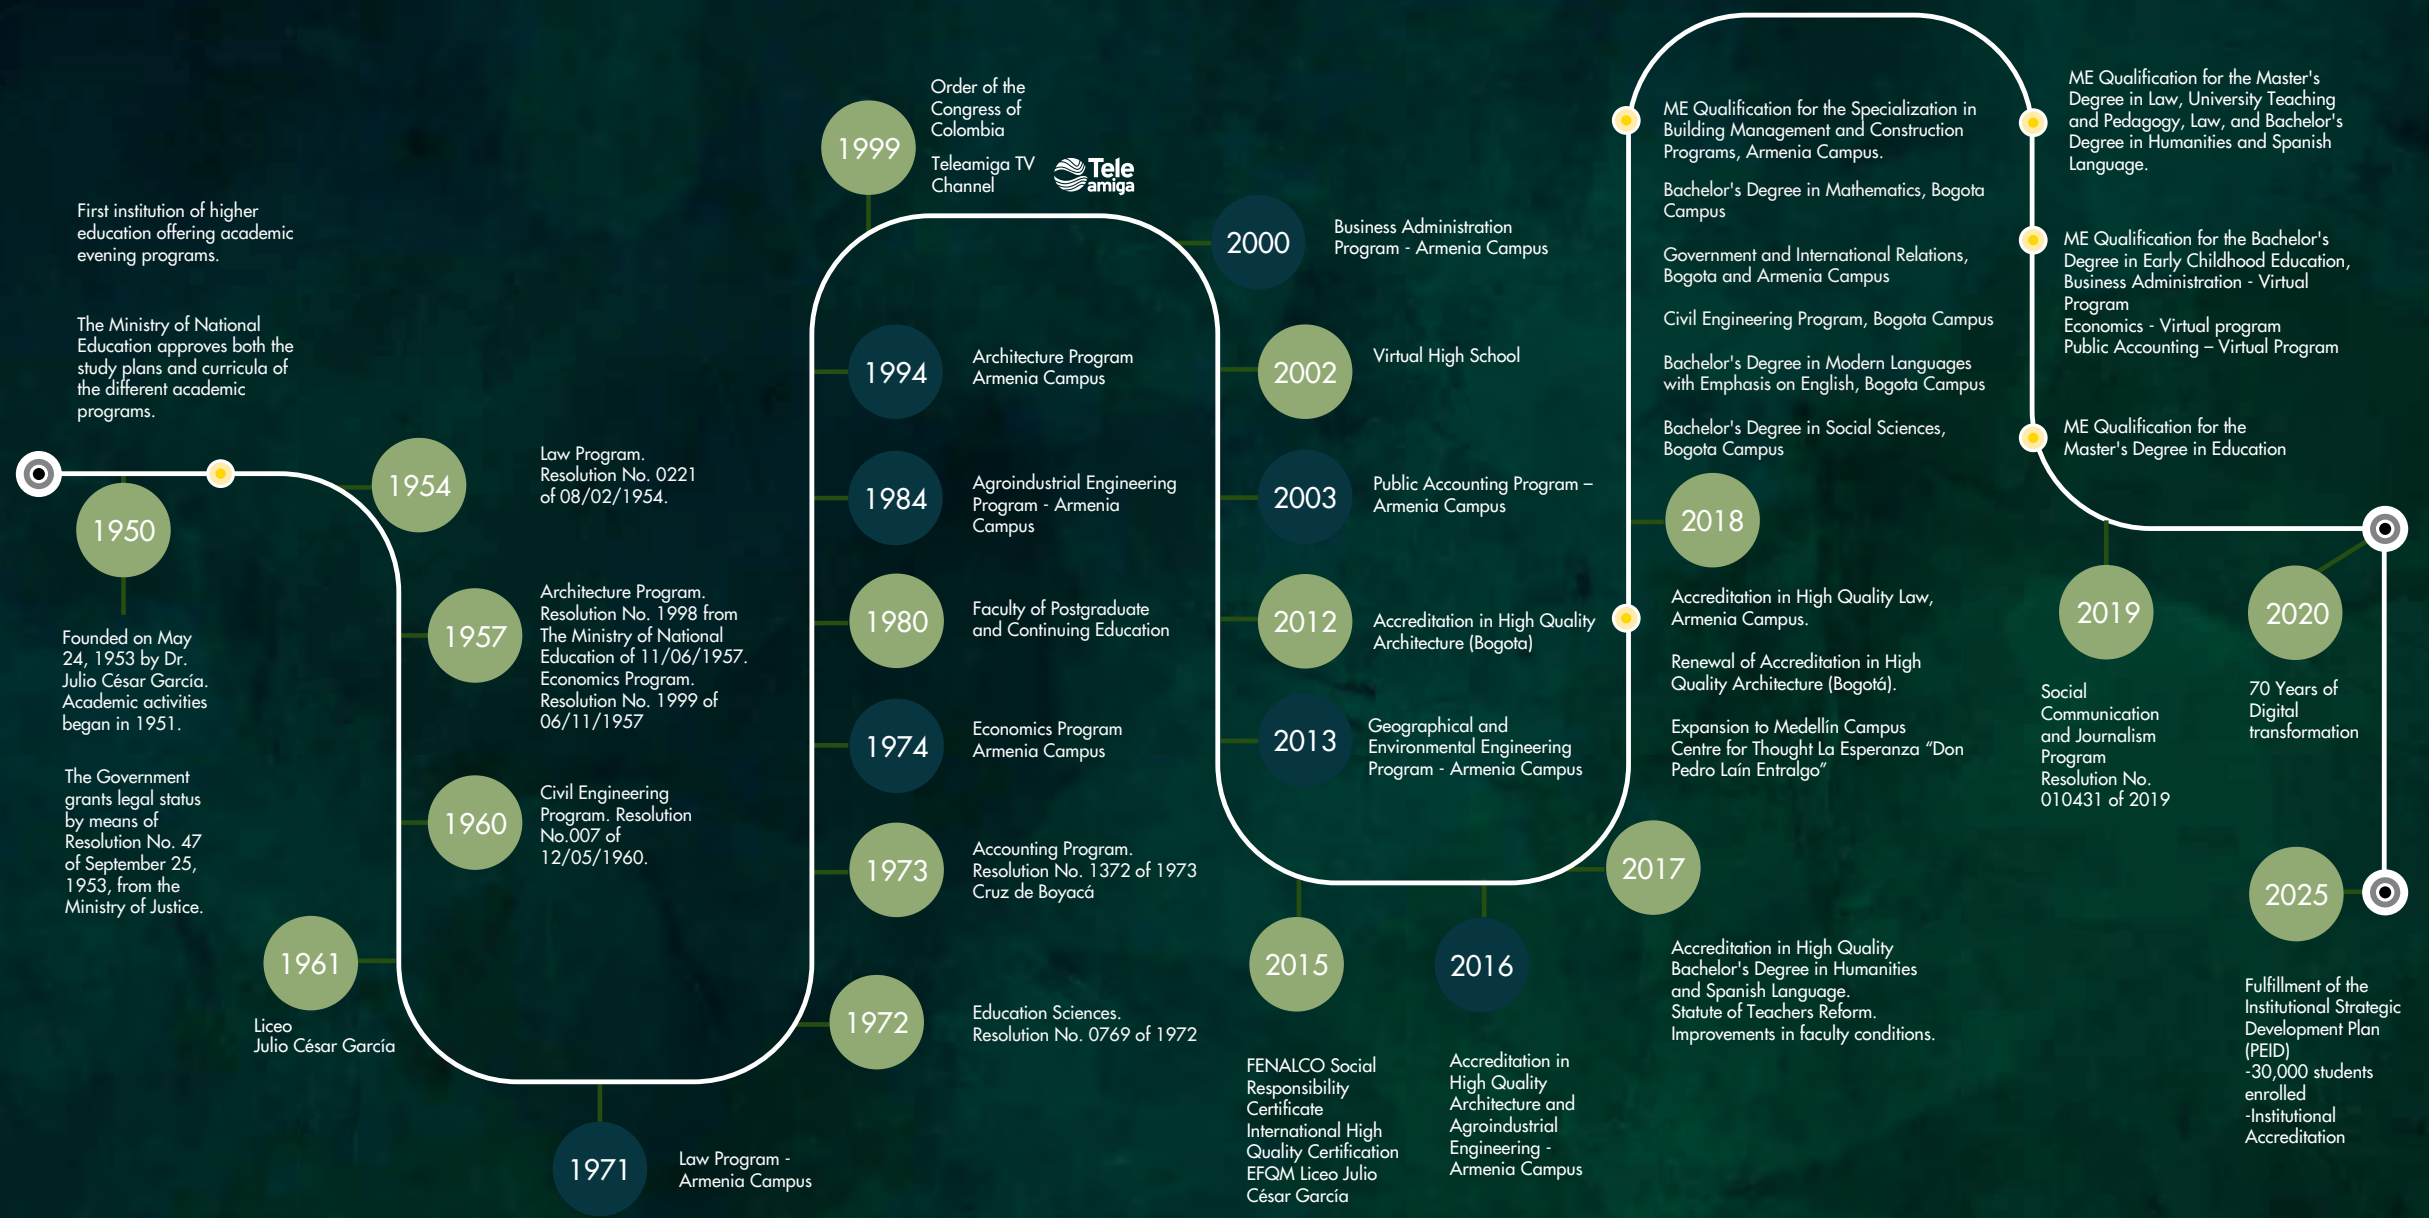

Hispanic: the university constitutes a permanent defense of the cultural values inherited from the Motherland.

Solidarity: the university is committed to providing education to individuals with lower economic resources and to the permanent promotion of a culture of solidarity.
