COGNIZANT IS LOOKING FOR GRADUATES
to start as junior developer
(Valladolid, Spain)

As part of our strategy in Valladolid, Cognizant wants to strengthen our Mobility development capabilities, **front-end as well as native (android, IOS)** and we are therefore looking for recent graduates to join us as junior developers.

<u>Your role as junior developer</u>
In the beginning the focus will be on training. After that you will become part of our team, providing a full range of IT services as Frontend Developer specialist to clients across multiple industry sectors.

You will:
- Be part of a team, working with teams from Cognizant and from our clients
- Work on business critical web applications, eCommerce and social marketing projects
- Have attention for quality, maintainability, performance and testing

All of the above needs to be done with the ambition to obtain the best possible result for our client. With that you are not afraid to point attention points and/or propose improvements along the way!

As a graduate you will receive training in the following areas:
- Advanced technical training on Javascript, CoffeScript, HTML5, CSS3 and AngularJS
- Team work using Version Control Systems (GIT), Continuous integration tools (Jenkins)
- Agile methodologies (SCRUM)
- Optionally, get trained in native technologies, as Android or iOS

Do you have:
- Bachelor's or Master's degree, preferably in Computer Science, Computer or Industrial Engineering, Business & IT, Management Information Systems or other related majors
- Programming skills in HTML, Javascript, Java, Android, iOS , PHP or similar
- Strong problem solving and analytical skills
- Ability to work in teams
- Good communication skills: English is required as you will have to communicate in English on a daily basis!
- Flexibility to work occasionally from any location in Europe

We offer:
- The chance to be part of a young and fast growing organization
- Extensive training through our Cognizant Academy
- An open, international and multicultural environment
- Opportunity of professional development and career path in one of the largest IT companies of the world.

KEEP CHALLENGING™

Digital Engagement Practice

We are the group within Cognizant focused on the digital transformation of our clients. From strategy to implementation, we ensure a seamless process with zero execution gaps, anchored by our lead consultants onsite, nearshore and offshore as a single team.

Over 12000 experts out of which 200 onsite in Continental Europe to define a multidisciplinary approach that combines key aspects of digital marketing, front-end design, analytics & scalable content management to ensure you get a holistic digital solution and experience.

We are proud to have successfully delivered more than 1000 projects, spanning across 15 years with an organization wide 95% repeat business from our delighted customers.

What is our vision on the digital revolution?

Cognizant recognizes that Digital is changing the game of doing business for major clients, and has supported its customer's journey with Digital Transformation since it became known in the market. Our Code Halos thought leadership is resounding very well with our client base and beyond. With the arrival of new standards like HTML5 and the latest products in eCommerce and Portals, this journey is continued in an exciting way. We continue to support our customers with state of the art consultancy, implementations, upgrades, environment migrations and new ways of making their Portals and Content Management investments productive. Become part of this journey as a junior developer, with a keen interest to excel in one of the strongest growing fields in the information industry.

Our presence

In Europe we are present in UK, the Netherlands, France, Switzerland, Germany and Belgium. We chose Valladolid as location to build our delivery & consulting competences. We are building up a whole new team to strengthen our Digital Engagement Practice capabilities and we are therefore looking for recent graduates to join us as junior developers.

We look forward to hearing from you!

Send your English CV to Cristina Costillas, graduate recruitment manager in Spain
